

REMOTE Research Internships are available within our research group!

جامعة الملك فهد للبترول والمعادن  
King Fahd University of Petroleum & Minerals

## ABOUT AI V&V LAB

Our research applies optimization and AI verification and validation techniques within supply chains, autonomous logistics operations, and emerging AI applications.

## BENEFITS

- Monthly research stipend
- Direct mentorship from KFUPM faculty
- Co-authorship opportunity on published research
- Conference travel or journal publication support
- Flexible schedule compatible with your current studies

## PROGRAMS

Research interns will be mentored directly by faculty and researchers from the Department of Industrial & Systems Engineering at KFUPM (QS Rank #67). All interns can opt to be enlisted as part of the AI V&V Lab and may receive travel support for conference or APC publication upon successful research output submissions.

## WHY STUDY IN KFUPM?

Huge Respect for Knowledge & Scholars

Diversely Islamic & Globally Vibrant

## WHY IN SAUDI?

Cutting-edge Infrastructure

Direct-entry PhD encouraged!

Strong Indonesian Community
